Dear Mr. Newman:

Karl Moulton gave me your address. I help maintain a website devoted to United States pattern coins – http://uspatterns.com. I was wondering if you would be willing to supply us with a listing of the pattern coins in your collection/foundation? We maintain a listing of the patterns in the major museum collections. I also understand that you possess the 1913 Buffalo nickel pattern in copper. Would it be possible to get a color photograph of that coin and possibly others to place on the website?

Your attention to this matter is greatly appreciated.

Sincerely yours,
Saul Teichman
